

CANS, PAILS, CYLINDRICAL

The advantage of cylindrical cans and pails is the possibility to empty them completely without leaving any residue inside. The lids are available with a rolled rim or with compound sealing. The lids can be secured either by security-clamps or a clamping-ring. In case of water-based contents, protection against corrosion is provided by varnishing and/or PET-coating on the inside (except 0,25 l). Cans and pails are available in sizes ranging from 0,25 l to 5 l.

DELIVERABLE SIZES AND VERSIONS

	Volume in l	ø (mm)	Height (mm)	Security-Clamps	Clamping-Ring	Quantity per EURO-Pallet
CANS, PAILS, CYLINDRICAL	0,25	73	77	without compound sealing		4.140
	0,75	99	119	X	X	1.485
	1,0	108	132	without compound sealing		1.040
	3,0	160 / 154	180	X	X	350

Quantity per EURO-Pallet (1.200 x 800 mm) applies to a pallet-height of approximately 2 m.
